POSITIVES		
<ul style="list-style-type: none"> • Interview not necessary • Child having a wonderful time...I am very pleased • Thank you for your work • More general personalised comments added value to the reports...report was about our daughter not someone else • Saw how our daughter was really performing • Very thorough when combined with the interview • More than pleased with the attention that the teachers are giving our children • Keep up the great teaching and learning and the variety of learning experiences • Easy to understand and interpret • Reports in combination with interview provide satisfactory information x3 • Crystal clear of where my child is at Thank you! • Happy • Impressed with my child's behaviour • Well informed by teacher Thank you • Very happy with everything ...is fantastic! • Very constructive • System is much easier to understand than previous system • Wonderful office support for parents tracking down teachers to ask questions 		
THINGS TO FOCUS ON		
<ul style="list-style-type: none"> • scoring mechanism seems subjective • comments more specific to the child • Arts should be divided into Visual and Performing • Consider 1 2 3 instead of A B C • Students openly discuss how many A B and Cs they get • Add social skills scale • Impersonal.....miss teacher comment • Add general comments section • Disappointed the AP and principals sig not original • Helpful to get report first ..then request interview if neededx2 • Interview too short x2 • What do some subjects mean? Interpersonal devt? A to E misleading...graph better to understand • More detailed section on personal devt, social skills confidence getting along • Ratings on prep card to be the same as other grades....helpful to know where your child is • Never given results of tests...hard to know where they are going • Not given a report as we were away for 6 weeks 		
Tear off slip-
