- j. **Constitution-** the department of education has updated the constitution for all parent clubs. This has included that to have voting rights parent club members need to be financial. It was agreed in this meeting that each member shall paid \$1 and this shall be collected at the first meeting of the school year after the class reps have been selected.

The updated constitution was accepted in principle by the parent club group, however there was some concern regarding the section where it stated any interested party could join the parent group as this was a little vague. This was addressed with Sheryl and she will follow this up and check whether this can be amended.

Next meeting Wednesday 15th August @ 0905 in the staff room
